"I believed all along that I would have been acquitted had I secured a new trial, but I'll be free before long, and I'll come back to my family."

While he tried to build up courage on this point, the fact remains that Morris, they will call him Stripling hereafter, was convicted of murder in the first degree and recommended to the mercy of the court, which saved him from the gallows: He was sentenced to the penitentiary for "the rest of his natural life."

Life Sentence Still Stands.

That sentence still stands. His brother-in-law, Terrell Hough, convicted at the same time, got the same punishment, though he has since been pardoned. But many people who heard Morris's statement to-night could not understand why le should have been sent up for life if he was really pro-

While not trying to convict him here in the newspapers, his political enemies remarked that a man who believed he had a right to shoot a man and who was so certain of acquittal had no reason to break jail and start life elsewhere again under a new name. He was married at the time. Some time he disappeared his wife Harris county mysteriously, and while the search was unremitting nobody ever got track of them until that Columbus man returned home with news that he had seen the slayer of Cornett in Virginia.

To-night for the first time, the pro-hibition Chief of Police discarded the name of Morris. He has notified some of his relatives that he is on his way to Georgia, and it is likely that relatives will come here to look after his family until he can return. The unfamily until he can return. without committing an assault on a prisoner could look for another job, and in this he was correct.

"The policeman is the guardian of the peace; he is supposed to preserve order, and when he comes in contact with an obstreperous customer—a man drunk and hard to handle—it is not within the province of a policeman to club his victim, to siap a man or assault a man he is trying to arrest, unless his life is endangered. If a man is ever so drunk; if he curses ever so loud; if he refuses to go with the policeman, it is not the thing to club him into submission. That policeman is duty bound, and legally and morally bound, to assist the unforteneum and the whole town to help him carry him to police headquarters.

"You sometimes see policemen who imagine that because they have a right to carry a club or a gun, they can club or shoot any person whom they want to arrest; but happily, in Danville, that does not work.
